INTRODUCTION

This is a little brief of this website which is a portfolio, it contains a little summary about us, what we do, some cards to expose our projects, made up with different programming languages, and some links to our social networks so you can contact us.

PURPOSE

The purpose of this project is to use all the tools and knowledge that we learn in the web development course, CSS, html and JavaScript, with the purpose of making a web site that we could use in the future to show something about us.

SITE DEPLOYMENT WITH GITHUB PAGES

Using the GitHub pages service, the final practice is uploaded to this link:

https://davidfelipeariza04.github.io/Trabajos-Desarrollo-Web/Proyecto_FInal/

TOOLS USED FOR DEVELOPMENT

- CSS
- HTML
- JavaScript
- AOS.js
